

American Flag Instructions

© artprojectsforkids.org

DIMENSIONS

- Finished 8 page mural: 30" x 20"

MATERIALS

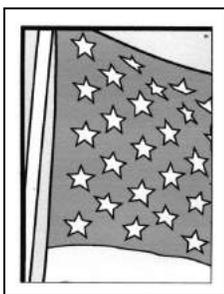

- Heavy white paper, 67 lb. recommended
- Oil pastels, crayons, markers or paint
- Paper cutter
- Masking tape (or glue stick for butcher paper mounting)

PREP

1. Print mural pages 1 – 8 on a white paper.
2. Trim out each page along the outer black line. A papercutter works best to maintain clean cuts.
3. Copy page number on the back of each paper. It will get hidden when students color.

MURAL ASSEMBLY

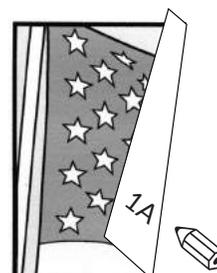

1. Students color each mural page. Gray shading is used to help color shapes correctly: Light gray is the sky, medium gray is red, and dark gray is navy blue. The pole shape that is on page 1 and page 5 is colored gray.
2. Lay out finished pages face up. Check content to see all pages are accounted for.
3. Lay out finished pages face down. Be careful to reverse the page sequence for proper final orientation.
4. Tape each seam heavily with masking tape. *An alternate solution is to use a glue stick to glue the pages to butcher paper that measures 30" x 20".

1. Printed page

2. Trimmed page

3. Transfer number to back

4. Color page
